

My Erasmus experience in Greece was beautiful.

I was hosted by a family in Argalasti. The first day I was excited and I did not know how it would be, then I felt part of the family and it was easy to integrate with their traditions. With this project I have learnt better to speak in English, to see me in different contexts and trying to face the problems of the group. I met the Greek traditions but also the other countries traditions thanks to the guys who were part of the Erasmus. We have become a big family.
